INVESTMENT BEHAVIOUR DASHBOARD

LEVEL 1 - BEGINNER | TASKS 1-2

Prepared by: Akshay Gaikwad

Internship domain: Business Analytics

Organisation referenced in the task guide: Cognifyz Technologies

Tool: Microsoft Power BI Desktop and CSV-based analysis

Prepared from the supplied CSV, PBIX project, and Cognifyz Business Analytics internship task guide.

Task 1 — Data Overview

Guide objective: understand the dataset structure by reviewing records, columns and data types.

Check	Result
Records	40
Columns	24
Numeric columns	8
Categorical/text columns	16
Missing cells	0
Exact duplicate rows	0
Age range	21-35

Numeric fields: Age, Mutual Funds, Equity Market, Debentures, Government Bonds, Fixed Deposits, PPF, Gold

Categorical/text fields: Gender, Investment Avenues, Stock_Market, Factor, Objective, Purpose, Duration, Invest_Monitor, Expect, Avenue, What are your savings objectives?, Reason_Equity, Reason_Mutual, Reason_Bonds, Reason_FD, Source

Interpretation: the CSV contains 40 records and 24 fields, with no missing cells and no exact duplicate rows. Numeric investment-score fields are coded values; the codebook was not supplied.

Task 2 — Gender Distribution

Gender	Count	Share
Male	25	62.5%
Female	15	37.5%

Male respondents account for 25 (62.5%) and Female respondents for 15 (37.5%). This describes the uploaded sample, not the overall investor population.

Power BI evidence

The supplied PBIX includes a Gender Distribution bar chart on the Analysis page. Capture an unfiltered screenshot for evidence.
